

KIRUSHANTH SATHIYASEELAN

Aspiring Software Engineer | Computer Science Undergraduate

kirushanth.20233050@iit.ac.lk | linkedin.com/in/kirushanth-sathiyaseelan | github.com/SKirushanth

Portfolio: portfolio-three-cyan-34.vercel.app

PROFESSIONAL SUMMARY

Computer Science undergraduate with a strong object oriented programming foundation in Java and hands on experience building full stack and cross platform mobile applications with React, React Native, Node.js, Spring Boot, and PostgreSQL. Experienced in securing REST APIs with JWT, containerizing services with Docker, and working in Agile/Scrum teams using Git and Jira through a Digital Transformation internship at EGUARDIAN. Comfortable across Android, Windows, and Linux environments.

TECHNICAL SKILLS

Languages: Java (OOP), Python, JavaScript, TypeScript, SQL, HTML5, CSS3

Frameworks: Spring Boot, React.js, Next.js, React Native, Node.js, Express.js, Tailwind CSS

Databases: PostgreSQL, MongoDB, Firebase

Dev and Delivery Tools: Docker, Docker Compose, Git, GitHub, CI/CD, Vercel, Postman, Swagger, Jira, VS Code

Concepts: REST APIs, JWT Authentication, RBAC, Agile/Scrum, Object Oriented Programming

Platforms and IT Ops: Azure AD (Microsoft Entra ID), SAML 2.0, SSO, IAM, Virtualization, Zoho Workspace

PROJECTS

Library Manager | React 19, TypeScript, Java 17, Spring Boot 4, PostgreSQL, Docker, JWT 2026

- Architected and deployed a full stack inventory and rental management system with role based access control (RBAC) for standard users and administrators.
- Developed secure, stateless REST APIs using Spring Boot, Spring Data JPA, and Spring Security with JWT authentication for protected routes and rental lifecycle operations.
- Containerized frontend and backend services with Docker and Docker Compose, connected to an external managed PostgreSQL database (Supabase).
- Built a responsive UI using React 19, TypeScript, and Vite, integrating Axios for API communication and client side routing for dynamic state management.

Mineo (Second Year Final Project) | React Native, Redux, Node.js, Firebase, LLaMA API, Grok API 2025 to 2026

- Developing a mobile application for personalized goal setting, habit tracking, and smart reflections (mineo.life).
- Integrated AI powered reflection features using the LLaMA and Grok APIs.
- Implemented backend services with Node.js and Firebase.
- Designed structured state management using Redux.

Prestige Real Estate Platform | React.js, Next.js, Tailwind CSS, Framer Motion, Vercel 2025

- Developed a high end property listing application for luxury real estate agencies (estate-agent-zeta.vercel.app).
- Implemented a multi criteria property search engine with advanced filtering.
- Deployed on Vercel for optimized performance and scalability.

PROFESSIONAL EXPERIENCE

Digital Transformation Intern | EGUARDIAN

- Reproduced and documented software defects as a QA liaison, coordinating with product teams through to resolution.
- Supported SaaS application troubleshooting and system reliability by investigating implementation issues and providing post rollout technical support.
- Managed end to end SaaS application deployments, including requirements gathering, solution demonstrations, POCs, implementation, rollout, and post deployment support, from end user to administrator level.
- Collaborated cross functionally, submitting and following up on feature requests and product enhancements with product teams to improve implementations.
- Developed technical documentation and troubleshooting guides, and delivered technical training sessions and webinars for channel partners on SaaS applications and implementation practices.

EDUCATION

B.Sc. (Hons) Computer Science | IIT, affiliated with University of Westminster Final Year

Foundation Certificate | IIT 2024

Ordinary Level (IGCSE Edexcel) 2023
